PROFESSIONAL OVERVIEW

I'm a Senior Software Engineer with over 10 years of experience building scalable web applications, and a Scrum Master with 1 year of hands-on experience leading Agile teams. I specialize in full-stack development and thrive in collaborative environments where cross-functional teamwork drives meaningful results.

WORK EXPERIENCE

Freelancer (*July 2024 – Present*)

I took a career break to focus on my health, explore some entrepreneurial ideas, and invest in my personal and professional growth by doing a freelance. During this time, I deepened my technical skills in back-end and front-end. *Note: This project has been deployed to my personal GitHub account for demonstration purposes. All content, particularly transactional data, consists of dummy information and does not represent actual data. Check my portfolio to see all my project*

My Portfolio : https://reimondavendano.vercel.app/

Tech Used: Next.js, Vercel, Supabase, GraphQL, React Js, Tailwind, Bootstrap, Semiphore SMS, Push Notification, Angular 18, NEST, Open Api (Anilist API, 9anime API, consumet API, fileConversion API), Mikrotik, Paymongo

Scrum Master
Accenture | Sept 2023 – June 2024

As a Scrum Master, I focus on helping Agile teams stay aligned, productive, and continuously improving. I lead with a servant-leadership mindset and work closely with cross-functional teams to deliver high-quality software solutions. Run daily stand-ups, sprint planning, reviews, and retrospectives to keep the team focused and continuously evolving

Tech Used: Azure , Angular, MSSQL

Senior Software Engineer
Accenture | Feb 2019 – Sept 2023

Successfully led and delivered three projects over the years, *Woolworth (Angular.js and React.js)* , *Hawaiian Airlines (Mulesoft Anypoint Platform)*, *My Scheduling (Internal Project)* each with its own unique challenges ranging from integration work to frontend, backend, and cloud-based development showing my flexibility across the full tech stack.

Tech Used: Angular.js, React.js, Mulesoft, Atlassian Bamboo, AWS, Unit Test (Karma, Jasmine) , Azure, Jira, Angular 12, Typescript, Github

Mobile Developer

Kata Digital | March 2018 –Dec 2018

Designed, built, and maintained cross-platform mobile apps using the Ionic framework, making sure they ran smoothly and looked great on both iOS and Android.

Tech Used: Ionic,Electron, Mysql

Junior Developer / Web Developer

Yondu Inc. | Feb 2017 –Feb 2018

Worked on developing, maintaining, and improving web applications using CodeIgniter. Built backend features and APIs to support internal tools and projects.

Tech Used: PHP (Codeigniter), Bootsrap, MySQL, GitHub

Simplex Inc. | Feb 2016 – Nov 2016

Built and maintained web applications using a custom PHP framework, working across both the backend and frontend. Practiced test-driven development with PHPUnit and used Redis for managing NoSQL data.

Tech Used: PHP, Bootsrap, MySQL, GitHub

Isoft System Inc. | Feb 2013 – Feb 2016

Built and maintained websites using CodeIgniter, Laravel, and MySQL. Handled both frontend and backend work as part of an Agile team, delivering projects on time and integrating with RESTful APIs along the way.

Tech Used: PHP (Codeigniter, Laravel), Bootsrap, MySQL, REST API, GitHub
